

# AuroraSpace - Business Development Workshop

(max 30 persons space, Klondyke)

Wednesday 22.1.2025 9:00-10:15, Winter Satellite Workshop 2025

1. Introduction to AuroraSpace project
2. Business development workshop:

Come and participate in defining the future support mechanisms and collaboration opportunities in the new space. What are the support mechanisms for innovation and entrepreneurship in space industry. What are the needs for early-stage companies and startups. What opportunities are needed in the Finnish /Nordic space ecosystem?

- **What challenges are you facing?**
- **What services have you used before (business, technology incubation, funding, networking, exports)?**
- **What services provided value?**
- **What services or opportunities are missing?**
- **International collaboration? What challenges? What more is needed?**
- **How to support Networking and collaboration?**
- **What type of infrastructure is needed?**
- **What type of support and development projects should be established to support?**

The workshop is intended especially for SMEs, startups, space entrepreneurs, business developers.

The event is arranged from the AuroraSpace EU Aurora Interreg and ORBIT EU projects which aim in boosting space business.
